chiverton architects

CHIVERTON ARCHITECTS ARE AN INTERIOR AND ARCHITECTURE PRACTICE BASED IN MELBOURNE. WE UNDERTAKE WORK LOCALLY AND INTERNATIONALLY ON A VARIETY OF PROJECTS. THE COLLABORATION WE ENJOY WITH OUR CLIENTS AND CONSULTANTS ENRICHES OUR IDEAS, INCREASES OUR KNOWLEDGE AND HELPS US TO BE BETTER.

We believe good quality design is the key to successful buildings. We seek simple, innovative solutions that are responsive to the budget, brief and setting. Our architecture reflects this simplicity through a minimalist aesthetic that utilises rich, warm materials and natural light to create calm spaces that feel good to be in.

WE OFFER A FULL RANGE OF ARCHITECTURE AND INTERIOR SERVICES, FROM INITIAL SKETCHES AND FEASIBILITY STUDIES THROUGH TO ON SITE CONTRACT ADMINISTRATION. OUR FOCUS ON SERVICE ENSURES THAT OUR WORK IS TIMELY, CLEAR AND RESOLVED.

The scope of our work includes: Feasibility studies, sketch design, town planning, development approval, building permits, building licences, detail design, interior design, contract documentation, contract tendering, contract negotiation, contract administration, marketing

SERVICES

WHETHER YOU WANT A RESIDENTIAL, COMMERCIAL OR INSTITUTIONAL BUILDING WE STRIVE TO CREATE SOLUTIONS WITH YOU THAT MAKE A BETTER BUILDING. WORKING ON A RANGE OF PROJECT TYPES IS IMPORTANT TO US, THE EXPERIENCE WE GAIN ACROSS DISCIPLINES CROSS POLINATES OUR WORK AND ENRICHES THE RESPONSES WE ARE ABLE TO GIVE.

HOUSES

The majority of our recent work has been designing houses and home extensions. Working on a house with a client expands our understanding of how people want to live, it challenges our preconceptions and it expands our design vocabulary. This is why working on housing is enjoyable and important to the practice

PREFABRICATION

We have proposed several solutions to briefs using prefabrication. We have done this where traditional construction methods may not be the best solution. Proposals include indigenous housing in remote communities, housing for miners in the outback and holiday chalets in Fiji.

RESORTS

The best resorts make you feel revived. The architecture and interiors of a resort are fundamental to this sense of wellbeing. We focus on designing space that is calm, we do this by using natural materials and by creating well proportioned spaces that flow into each other and into the setting.

CHIVERTON ARCHITECTS ARE A SMALL COMPANY THAT HAS BEEN ESTABLISHED SINCE 2001. WHERE LARGER PROJECTS ARE ANTICIPATED WE WORK COLLABORATIVELY WITH OTHER FIRMS WITH GREATER RESOURCES. WHATEVER THE SCALE OF WORK WE WILL STAFF IT APPROPRIATELY TO BRING THE EXPERTISE YOU NEED. ALL PROJECTS WE UNDERTAKE ARE OVERSEEN BY THE COMPANY'S PRINCIPAL BARNABY CHIVERTON.

Barnaby Chiverton

Barnaby graduated from the Mackintosh School of Architecture in 1992 with an honours degree in architecture. In 1993 he joined the Australian firm of Kerry Hill Architects in Singapore. Kerry

Hill Architect is a recent recipient of the RAIA Gold Medal and his companies work has been published regularly and awarded globally.

While in Singapore he worked on a number of hospitality and residential projects in Asia and Australia. In 1995 he joined Terry Fripp Design working on several resort and residential projects. Some of the work was in association with Paul Rudolph one of North Americas leading modern architects.

In 1999 he moved to Melbourne where he worked on a range of projects; residential, institutional, commercial and industrial before forming Chiverton Design in 2001. In 2008 the company name was changed to Chiverton Architects
